Profilul firmei:

Job description

An opportunity is available for a high performing, young and ambitious lawyer to join our team in Bucharest. Our pharmaceutical regulatory team, widely recognised in the local market as a leading practice, has developed an excellent understanding of how businesses in this sector operate and of the regulatory and commercial issues affecting them. The successful candidate will work in an inspiring and collaborative environment, together with reputed practitioners, with extensive expertise in dealing with the national and EU regulatory related aspects of manufacturing, supply, distribution and marketing, competition related matters, R&D and intellectual property strategy and tax.

Desired Skills and Experience

To be considered for this opportunity you will need to have at least 1 year post admission experience at a recognized business law firm or in-house. You will also need to have a track record of consistent high performance during the academic studies and good results at the Bar admission exam and demonstrate at least some degree of demonstrable competition or regulated sector matter exposure. Experience in working for companies in regulated sectors is nice to have.

You will pride yourself on your exceptional client focus, legal, analytical and interpersonal skills, and you will be energised by working in a very driven, ambitious, hard-working and high performing team.

If you are looking to take the next step up in your career and make a valued contribution, this is a fantastic opportunity for you to join a global law firm.

If you are interested in applying, please send your CV together with a brief cover letter highlighting your experience to Monica Brusalis, HR Advisor, at monica.zilberman@dlapiper.com.

We welcome applications until 25 February 2018, but we will close the role earlier than advertised if we find our new future colleague sooner than this date, so please apply at your earliest opportunity.

We are defined by our people. They are our global identity as an organisation. Our brand is based on relationships and our people define our relationships.
