

PwC Romania announces the promotion of eight Directors in Tax, Assurance and Advisory departments

PwC Romania announces that, starting with 1 January 2021, eight directors will be promoted within the three service lines of the company: Tax and Legal Consulting, Assurance and Advisory.

”I am proud of our colleagues who have demonstrated outstanding professional and human qualities, constantly contributing to the development of the company and the success of our clients. At the same time, the promotion of eight directors is a further proof that our practice is strong and offers, even in these uncertain times, great development opportunities for our colleagues in all lines of service”, said **Ionut Simion**, *Managing Partner PwC Romania*.

Oana Munteanu, Livia Teodoru, Roxana Popa, Diana Roșu and Diana Oprescu become Directors in the practice of Tax and Legal Consultancy, Andreea Bistriceanu, director in Advisory, and Iuliana Teletin and Amoros Avramia, Directors in Assurance.

Oana Munteanu joined PwC Romania in 2008 and led the people and organization consulting practice in PwC Romania for over three years. She has more than 12 of experience in CEE / CIS countries, in projects related to people strategy, people management processes effectiveness, organizational assessment and design, and change management.

Livia Teodoru has over 14 years of experience in PwC Romania, being specialized in transfer pricing. Her focusing fields are: planning, documentation, Advance Pricing Arrangements, dispute resolution and business restructuring. Her experience includes mainly projects in industries such as Pharma and Retail & Consumer.

Roxana Popa started her career in PwC Romania 10 years ago and has extensive experience in corporate tax advisory services, both Romanian and international tax aspects including tax structuring, tax reviews, tax audits projects and transfer pricing.

She has been also involved in several reorganisation projects including tax due diligence assignments, acquisition structures, mergers & spin-off projects for companies active in industries such as energy, telecommunications, oil & gas, utilities, industrial products and retail and consumer products.

Diana Roșu has been part of the PwC Romania team for over 11 years. She advises companies in the financial services and real estate business and checks their tax attributes. Throughout time Diana dealt with various restructuring processes and asset management, financing structures, transfer pricing and investments on capital markets.

Diana Oprescu has over nine years of experience in PwC Romania. She has extensive experience in international tax planning and consultancy, with focus on technology, media and telecom industries.

Andreea Bistriceanu has been working for almost 13 years in PwC Romania in Deals and Transactions Services. Since joining the firm, she has been involved in numerous financial due diligence projects, both buy-side and sell-side, related to diverse industries, such as: industrial products, energy, retail, health-care and pharmaceutical, IT and telecommunication, real estate.

Iuliana Teletin joined the company in 2008, having relevant experience in both financial audit as well as in accounting consulting. Starting with 2011, Iuliana was involved in the development of the Department of Capital Markets Accounting Advisory Services, coordinating missions such as: IFRS implementations, development of accounting policies manuals in accordance with national standards as well as IFRS, assistance in developing the financial reporting functions and economic analysis. Iuliana is also involved in the audit projects of the non-reimbursable financing obtained by the companies through various programs (State Aid, EU funds).

Amoros Avramia joined PwC Romania 13 years ago and has extensive experience in statutory Romanian reporting and International Financial Reporting Standards (IFRS). Amoros has managed a diverse portfolio of clients from a wide variety of industries, such as retail and consumer, distribution, real estate, constructions, pharmaceuticals, industrial products and services, automotive, agriculture, energy, chemicals, transportation and logistics, financial services, telecom, technology, media, entertainment, e-commerce, shared service centers, financial services, public sector.
