

PM Citu: Gov't approves memorandum to close CVM process, embarks on ambitious program till June

The government approved a memorandum on closing the process of the Cooperation and Verification Mechanism (CVM), which sets out an "ambitious" calendar for steps in this regard, Prime Minister Florin Citu announced on Wednesday.

"It is a political commitment of this coalition and we will take priority steps to close the Cooperation and Verification Mechanism process; of course, this is about Justice legislation. This memorandum clearly puts forth a timetable for the government, together with Parliament, with the parliamentary coalition, to solve this problem. (...) This is a very important subject, this government, this ruling coalition has pledged to fulfill the CVM based on the recommendations received. It's an ambitious calendar we attempt to complete by June," Citu said at the Victoria Palace of Government.
