

Citu: 5G draft law will be adopted by Parliament in emergency procedure, as established by the Government

Prime Minister Florin Citu said on Monday that the 5G draft law will be adopted by Parliament in an emergency procedure, as established by the Government.

"From my point of view, things are very clear. It remains as the Government has established. I spoke with the Speaker of the Chamber of Deputies, members of Parliament. It will be an emergency procedure, this draft law will go in an emergency procedure. I expect the report to be this week in the Chamber of Deputies and, after that, to go to the Senate," Citu said at the Parliament Palace.
