

Kinstellar Bucharest announces new internal promotions

Kinstellar has announced a new series of promotions in its Bucharest office in recognition of the team's excellent results across core practice areas.

Promotions to Managing Associate

Catalin Dinu, specialized in real estate and energy renewable projects, but also with considerable experience in the agribusiness sector, and Catalin Graure, with a strong track record in competition law matters, also focusing on energy & natural resources, have both been promoted to Managing Associate as they have both demonstrated the ability to take a primary role in managing matters and will continue to do so.

Promotions to Senior Associate

The following lawyers are ready to assume a more senior role and are all promoted to senior associate: Madalina Anghenie, focusing on employment law matters, also a team member of the broader life sciences team; Razvan Constantinescu, specializing in banking & finance, also focusing on real estate and a range of commercial and corporate matters; Razvan Crețu, specializing in energy (including nuclear), environment, regulatory and infrastructure/public procurement; Madalina Perțe, focusing on corporate and M&A as well as financial regulatory and capital markets matters; Patricia Piticaș, specializing in employment and labour law (including litigation and IP rights).

All appointments above are effective as of 1 July 2021.

The announcement comes after the promotion to Counsel of Alexandru Mocanescu (currently practising exclusively real estate, having significant expertise in the field) and to Managing Associate of Vlad Simion (experienced in dispute resolution and white-collar crime, compliance, risk and sensitive investigations and public procurement) earlier this year.

Kinstellar Bucharest's managing partner, Victor Constantinescu, adds: As our Bucharest office continues to be busy and grows and matures, we are delighted to announce these internal promotions. They are a great bunch of lawyers (as all our staff are) – putting in extra efforts to make our clients happy. It is only natural that they further advance. We're proud of our team!
