

Bondoc & Asociatii joins the 4th edition of the 'Made in Romania' program

Bondoc & Asociatii joins the 4th edition of the "Made in Romania" program, a key project of the Bucharest Stock Exchange launched in 2017, in order to identify and promote top companies from Romania. The aim of this program is to create a community where Romanian entrepreneurs can promote and take their business to a new level of development by attracting capital market financing.

By contributing to this successful BSE program we intend to support Romanian entrepreneurs in discovering the benefits of diversifying the sources of corporate finance, including by accessing the facilities offered by capital market financing.

We wish good luck to the 50 semi-finalist companies selected by the nomination committee, out of which the 15 selected finalists shall be publicly announced at the Awards Gala ceremony scheduled for September 2021.

More details regarding the Made in Romania program [can be found here](#).

Bondoc & Asociatii' capital markets team provides legal assistance covering all types of capital market financing (including IPOs, SPOs, plain vanilla bond issues or hybrid banking and capital market financing, as well as financing through equity crowdfunding platforms), with extensive experience in assisting on compliance with capital market legislation requirements as well as on corporate governance best practices.
