

PM Ciuca requests ministries to finalize 'Support for Romania' package

Prime Minister Nicolae Ciuca asked on Thursday all the ministries to finalize by next week the regulation of the measures provided for in the 'Support for Romania' program, "as pledged in the governing coalition", noting that these measures must take effect from July 1.

"It is important to continue our 'Support for Romania' package. I just want to emphasize that we are approaching the end of the month, the package should be implemented in full starting with July 1," Ciuca said at the beginning of the government meeting.

"Therefore, let every ministry that has not yet finalized the regulation of the measures, as pledged in the governing coalition, complete the job by next week, so that the measures can take effect from July 1," added the Prime Minister.
