

Ana-Maria Baciu and Andrei Cosma recognized in Chambers and Partners Global rankings for Gaming & Gambling

In highly regulated industries, independent recognition rarely reflects a single moment; rather, it signals consistency of judgement and clarity of approach. Also, it mirrors the ability to remain strategically aligned in environments where regulation evolves alongside innovation.

The Chambers and Partners Global 2026 rankings reflect this dynamic, and once again recognizing Ana-Maria Baciu as a Global Market Leader in Gaming & Gambling. Marking her fifth consecutive year among a select group of only 80 practitioners globally, the distinction highlights strong market trust in her ability to navigate complex regulatory frameworks while embedding legal strategy in business realities.

This year's edition also marks an important milestone, with Andrei Cosma debuting in the rankings as Up-and-Coming — a distinction awarded to professionals demonstrating strong market recognition and a growing international footprint. Andrei joined an exclusive global class of only 2 lawyers.

Chambers and Partners, a highly regarded publication covering more than 200 jurisdictions worldwide, bases its rankings on extensive independent research and feedback from clients and peers. Independent observers noted that "*Ana is a top practitioner*", "*very down to earth and knowledgeable, and "business-focused and highly responsive*", while the editorial also highlights that "*Andrei is an outstanding and very knowledgeable lawyer*".

BACIU PARTNERS is the Romanian independent business law firm with the most prominent presence in the 2026 Global rankings for this field, reaffirming its status as a provider of legal excellence.

These recognitions further highlight BACIU PARTNERS' commitment to combining regulatory depth with commercial awareness: an approach that aims not only to interpret rules, but to provide clarity, direction and confidence in industries and practice areas characterized by constant change.

The above distinctions continue the strong track record of both individual and firm-level recognitions in the gaming and gambling field, where
