Țuca Zbârcea & Asociații has launched the 2019 edition of the “*Better Business in Romania*”, a user-friendly legislative guide covering 18 areas of law.

“**Better Business in Romania**” compiles important pieces of information regarding the legislative climate applicable to investments in various areas of interest, starting from Corporate Law (aspects concerning the setting-up, management, acquisition, merger, and dissolution of a company), Real Estate, Creditor and Debtor Disputes, Employment, Public Contracts, Competition, Energy, Capital Market, Financial Institutions, Intellectual Property, Pharmaceuticals, Environmental law, Product Liability and Consumer Contracts, Insolvency, as well as Criminal Law and Taxation.

For the first time, a dedicated chapter on Personal Data Protection was added to the table of contents.

“**Better Business in Romania**” is made to offer foreign investors looking for investment opportunities in Romania a preliminary account of the legal framework in Romania. The information and opinions herein should not be treated as a comprehensive study and should not be construed or used as substitute for specific legal advice.
